

## Weekend Architectural Challenge

Model of design proposal

Antonio Caliz with team members Nick Xu, Matthew Tiews and Hiroko Nakatani

Antonio Caliz, Senior Associate at our Palo Alto office, recently participated in a two-day design charrette with Stanford University's Architectural Design Program and the Stanford Arts Institute. Nine student teams were invited to partner with leading international architects with the challenge to design an artist's cottage to be built on local patron's Sonia Dhillon-Marty's private residence in Portola Valley, California. The charrette was held at Dhillon-Marty's residence from October 26, 2012 – October 28, 2012.
